

December 21, 2021

Helping to protect our residents, staff and visitors from COVID-19 remains a continued priority for Francois Bend Senior Living. We are proud to play a part in stopping the spread of the COVID-19 virus and getting back to our everyday lives and staying healthy by doing the following:

- Francois Bend is Proactive. We continue to monitor the COVID-19 pandemic very closely and remain focused on our infectious disease control efforts and tracking all COVID-19 variants. We are following both state and federal guidelines.
- Francois Bend is Vaccinated. Our community has held booster clinics for the COVID-19 booster shot as well as FLU clinics for the FLU vaccine. All residents who were eligible have received the vaccines.

We look forward to a brighter new year! If you have any questions, please contact me directly.

Sincerely,
Nichole S. Chauvin
Francois Bend Senior Living
